Subject: FW: FY15 Priority Permit Candidate List
FY15 PP candidates July 21 2014.xlsx

State NPDES Managers,

Take a look at the attached list of backlogged permits. Let me and/or Jackie Clark know if any of these are not backlogged (e.g. issued, terminated) below we start selecting FY15 priority permits. Thanks.

David

Subject: FY15 Priority Permit Candidate List

Hello,

I have attached the draft FY15 Priority Permit candidate list, which was created using ICIS data from today. Like FY14, we will be looking for a selection of 20% of the candidates and a commitment of 80% of the selected permits. Also, we will again consider removing permits with unique circumstances preventing their reissuance from the candidate list.

Please take a look and let me know if there are any major errors or requests for candidate removals by **August 11, 2014**.

The revised list will then be loaded into the new PMOS, which I will send information out on

separately, to begin the priority permit selection and commitment process. If you would like, you may also begin making priority permit selections by highlighting permits in the attached file and adding a reason for selection for each from the list below:

- a. National program priority (CAFO)
- b. Significant changes to facility's operations
- c. National program priority (CSO)
- d. Discharge to drinking water resources
- e. Revised effluent limitations guidelines
- f. Protection of an endangered species
- g. Environmental justice
- h. Facility located on priority watershed
- i. Permit is more than 10 years expired
- k. Discharge to an impaired water body (i.e., water body on 303(d) list)
- l. Implementation of a WLA from a TMDL
- m. Revised water quality standards
- o. Other. If "Other" is selected, an explanation/description must also be provided.

Please feel free to call or email me if you have any questions.

Thanks,

Jackie
